

THERE'S SOMETHING RADICAL GOING ON INSIDE THIS COTTAGE

and representatives of California's Dept of Toxic Substances Control (DTSC) want to know what it is! That's why on this mid-October afternoon they came to investigate.

CICC Members who participated in the 2005 Fall Meeting & Issues Conference learned the answer to the question, but if you missed the conference you might want to read on to find out what it's all about.

The fact of the matter is, you never know what might be taking place in plain sight

Learn how one creative CICC member provided the solution to a local health and safety issue in this quiet rural neighborhood!
